## Step In Step Up Programme for Sixth Form Girls

**Morgan Stanley** is one of the world's leading global investment banks and hosts a two day insight programme called "Step-in Step-up" (SISU) in their London Offices for Year 12 & 13 female students twice a year. This programme provides students with an in-depth introduction into investment banking alongside a comprehensive overview of how various divisions and roles interact with one another across the firm.

Participants will gain an understanding of the functions of an investment bank and will meet a variety of inspiring employees throughout the two days who will share their career insights and experiences. The programme includes engaging case-studies, group presentations, panel sessions, interactive workshops and networking opportunities.

SISU is held in February and July each year and the next intake will take place on 20th -21st February 2019. Please apply before the deadline of 6th Jan 2019 with your CV and cover letter.

Click here <<http://purepotential-mail.org/act/link.php?mId=P9302185899818332039414946452918&tId=133379312>> to apply directly to the SISU programme.

Please get in touch with Morgan Stanley if you have any further questions - [earlyinsightsemea@morganstanley.com](mailto:earlyinsightsemea@morganstanley.com)

## Need some advice about scholarships?

Many Careers Advisors have asked me to attend their school to talk to the students about scholarships, but as much as I would love to, unfortunately I can't make it round to all of you. However, I did record a short (3-min) "*introduction to GrantFairy scholarships*" video which many schools and colleges are now using as part of their induction process.

<https://www.GrantFairy.com/how-to>

And today there's a new resource, courtesy of the lovely Lucy Parson at *Life More Extraordinary*: Lucy invited me onto her podcast recently and the new episode went live just this morning... it tells a bit more about the birth of the app and the reason I started building it in the first place which students may find interesting.

<http://lifemoreextraordinary.com/podcast/61-how-one-little-app-can-reduce-your-student-debt-by-thousands-with-myles-jardine/>

As always, please don't hesitate to grab a hold of me if you have any questions about **scholarships**, about the **free scholarship platform**, or about the **GrantFairy scholarship system** in general... I'm always around and happy to help.

Best regards,

Myles Jardine, Founder

GrantFairy UK Scholarship App

## ▶ LEAD PROGRAMME 2019

Designed for enthusiastic school leavers, our **Leadership, Education and Development (LEAD)** higher apprenticeship (trainee supervisor) programme allows you to learn and develop supervisory skills in a hands-on environment. It offers the best of both worlds – earning while you learn to be a future supervisor or manager.

### Benefits

- Earn while you learn – we fund all of your studying and pay a competitive salary and benefits package
- Complete a foundation degree in mineral extractives
- Progress to an honours degree in mineral extractives management

To find out more visit [hanson-careers.co.uk](http://hanson-careers.co.uk)

Applications open from November 19, 2018 – January 13, 2019

## The Government Economic Service Degree Apprenticeship

### Details

The programme offers you a unique opportunity to work in a central government department or agency on some of the most important social, environmental and economic issues our country faces – whilst studying a degree in economics.

You will complete your studies with the University of Kent – selected to deliver the programme because of the strength of their economics courses and the support they'll offer to apprentices throughout your time on programme.

Once complete, you will have an apprenticeship, an economics degree, and the experience of four years' working in the Civil Service – putting you in a brilliant position to progress in your career from there.

Your apprenticeship will be fully funded by whichever department or agency you work in – via the apprenticeship levy - meaning you don't have to contribute a penny to the cost of the apprenticeship or the degree that sits within it.

When you join the programme you'll earn a salary of around £22,000 in London, or £20,000 outside of London. When you successfully graduate from the programme you can expect to earn at least £27,000 – and have a huge range of career options ahead of you in Government and beyond.

To apply you'll need GCSE maths at grade B (6) or above, and at least 96 UCAS points (A level or BTEC). We also welcome applications from bright, enthusiastic applicants with other relevant qualifications or previous experience.

We are hoping to appoint around 75 apprentices to join the programme in autumn 2019. Formal recruitment will launch in December 2018. Follow our website and social media feeds for details of the selection process in the weeks to come.

*We expect applications to open in December 2018, assessment centres to take place in spring 2019 and for the programme to start in August / September 2019.*

### **Register interest**

*If you'd like us to notify you about when you can apply for the Government Economics Service Degree Apprenticeship Programme, all you need to do is email us from the account you would like us to contact you on with your name and current status (e.g. A level student, employed, civil servant) to: [gesrecruitment.grs@cabinetoffice.gov.uk](mailto:gesrecruitment.grs@cabinetoffice.gov.uk)*

You can follow us on [Facebook](#) and [Twitter](#)

### **More information**

To find out more about the apprenticeship programme, visit:

## Interested in a career in the film industry? There are many gap year study programmes available at Oxford Royale Academy.

If you would like to know more about the programmes, modes of study or the ISC generally, please call Dr Julie Evans, ISC Principal, on +44(0)845 130 6021, or email [study@oxford-royale.co.uk](mailto:study@oxford-royale.co.uk).

## Goldman Sach- Apprenticeships in Technology

<https://www.goldmansachs.com/careers/>

You probably know Goldman Sachs as a leading financial services firm. What might surprise you is that over one quarter of our employees, more than 8,000 professionals, make up our Technology Division, the largest in the firm.

At Goldman Sachs Technology, we build solutions to some of the most complex problems. From applications development to managing data, risk analysis to safeguarding information and promoting environmental responsibility, our commitment to best-in-class technology provides Goldman Sachs with a competitive advantage.

At Goldman Sachs we deal with real-world technology challenges of a size, scale and complexity that very few companies face. Success in our industry hinges on constant innovation and on the technology that backs it up. It's the ability to create and utilise something that wasn't there before, and to do it first.

Our technology is our competitive edge. That is why we build it ourselves and why, more than ever, we're investing in people who can make innovation happen. We're looking for people who are ambitious and innovative, who want to be empowered early in their careers and like to work in a collaborative, team-driven environment.

As a global, multi-disciplinary technology organisation, we not only support workplace diversity and internal mobility but are committed to leading the way. We require technical proficiency, of course, along with exceptional academic achievement. But the qualities and talents we especially prize are rarer: professionalism, initiative, creativity, and most of all integrity. We want candidates who are willing to learn and put their learning to work. We can teach you the rest.

## Greencore in conjunction with Nottingham Trent University

We are searching for our next cohort of **Trainee Managers** to start in **September 2019**, could you be one of them? The **Trainee Manager** role at Greencore offers the successful candidate a place on our **Degree Apprenticeship** programme in partnership with **Nottingham Trent University**. This programme offers you a unique opportunity to work in a fast growing and dynamic organisation whilst studying at the same time!

Successful candidates will work their way through the programme over the 4 years going from entry level roles, through supervisory roles, into managerial leadership roles by the end of the 4 years (subject to measured and monitored development and performance). Successful candidates who prove themselves to be high potential may, we hope, go even further in the organisation.

Greencore Group plc is a leading international manufacturer of convenience foods. We are proud to supply a wide range of chilled, frozen and ambient foods to some of the most successful retail and food service customers in the UK and US.

We do this by combining a passion for great food, an effective business system, efficient cost control and exceptional people in an approach we call The Greencore Way. Learn more about us by visiting our website.

Successful candidates will attend Nottingham Trent University during weekdays for programme delivery (an average of 2 days per month, but this may aggregate higher or lower over the course of the programme). There will also be workplace meetings with your manager and programme leader. The first 3 years of the programme they will work towards the bachelor's degree, then the fourth year will focus on achieving their Chartered Manager award (CMgrM CMI).

We offer three different programmes in Operations, Commercial or Technical Functions and you'll be asked about your preference during the application process.

Operations candidates will spend their first 6 months (approx.) working and shadowing activity across a range of factory tasks in order to understand the breadth of the operation. They will then transition to a Front Line Leader role which has responsibility for a production line; they will work to production KPIs, be responsible for their teams' wellbeing, and escalate issues outside their role responsibilities.

Commercial candidates will gain some exposure to our factory environment and will rotate through Marketing, Sales and Product Development roles, leading through to Category / Business Account Manager or Product Development Managerial roles.

Technical candidates will work across a range of site and office based roles across Quality Assurance, Raw Materials or Process Technologists and Specifications Analysts, leading through to Quality Assurance Supervisor and Managerial roles.

Find out more and apply <[https://email.targetcareers.co.uk/rsps/m/guY83w0InUtddp0-rl\\_TLNbRiq-M3YFFysusxAUnBU](https://email.targetcareers.co.uk/rsps/m/guY83w0InUtddp0-rl_TLNbRiq-M3YFFysusxAUnBU)>

The screenshot shows a job listing for 'Moët Hennessy Degree Apprenticeship' on the Pearson Business School website. The listing includes a navigation bar at the top with links like 'Find a course', 'Pearson Business School', 'Escape Studies', 'Degree Apprenticeships', 'Centre for Industry Engagement', and 'For Employers'. The main content area features the Moët Hennessy UK Limited logo and a red 'Apply now' button. Below the button, there is a list of job details: Course title: Moët Degree Apprenticeship, Degree programme: BA (Hons) Business Management, Location: London, Start date: January 2019, Salary: £18,000 per annum, Duration: 3 years to complete the degree. Permanent work contract, and Course format: 4 days work (Monday - Thursday), 1 day study (Friday). The text describes the opportunity as a chance to work for a world leader in luxury wines and spirits, earn a salary, and gain a degree at the same time. It also mentions that the programme is a partnership with Pearson Business School and that successful candidates will work towards a Chartered Manager award (CMgrM CMI).

## **Careers at Sky**

Click on the link for more information or attend their open day

<https://careers.sky.com/earlycareers>

You've probably never considered a job in Sky before - but if you're looking for a job that gives great support and excellent benefits, this could be the perfect place for you.

**We're running an open day on Thursday 13th December at Sky HQ.**

The aim of this event is to help you gain a better understanding of Sky and the breadth of opportunities we have on offer for you within our work experience and apprenticeship programmes.

### **Open Day Agenda**

- Tour of the Sky campus
- CV writing workshop
- Meet our team and apprentices from across the business on a panel/networking session

Check out the [link](#) and apply for the chance to see what Sky has to offer. Spaces are limited so please apply soon to avoid disappointment. We're going to be running more events after Christmas but we're keen to share general hints and tips before you break up for the holidays.

If you would like to find out more about specific opportunities, please contact us at [earlycareers@sky.uk](mailto:earlycareers@sky.uk)

Look forward to meeting you on 13th December.

#### Bookings and Further Information

To provisionally book a group of students please contact Jude using the following details.

Email – [jude@ukuniversitysearch.co.uk](mailto:jude@ukuniversitysearch.co.uk)

Phone – 020 7609 4254

This provisionally booking can be completed and amended at a later date.

We recommend students spend approximately 2 ½ hours at the event. We allocate arrival slots, so let us know what time you would like to arrive. We will do what we can to accommodate this. To increase this likelihood please get in touch as soon as you are able.

A health and safety assessment is available on request.

## **I am interested in learning more about study in the US. Where can I find out more?**

APPLICATIONS FOR THE SUTTON TRUST US PROGRAMME FOR SIXTH FORMERS NOW OPEN

WHAT IS IT?

The [Sutton Trust US Programme](#) is designed to support high achieving Year 12 students from state schools across the UK to explore US study and access leading universities

It includes two residentials in the UK, before all students spend a week in the US staying on campus at a leading US university and visiting a variety of other American universities. An optional second year of the programme supports students to apply to US universities alongside their UCAS options.

In the past six years, we have helped more than 300 British students get places and funding at top US universities. The Programme is founded and funded by the Sutton Trust, the UK's leading social mobility charity, and delivered in partnership with the Fulbright Commission, who are experts in helping UK students study in the US.

## HOW MUCH DOES IT COST FOR STUDENTS?

The programme is free for students – including travel, food, accommodation, admissions test preparation and more, all costs are covered by The Sutton Trust and its donors.

## WHO ARE WE LOOKING FOR?

To be eligible to apply, students must:

- Currently be in Year 12 (England and Wales), S5 (Scotland), or Year 13 in Northern Ireland.
- Have always attended a state school or college (non-fee paying) in the UK
- Not hold US citizenship
- Be from a low-income family (generally, this will mean a household earning £45,000 or less)
- Be interested in US culture and higher education

Additional criteria: we are looking for applicants who also meet the criteria below. The more of these you meet, the more likely you are to secure a place:

- Would be the first generation of their family to attend university
- Have been eligible for free school meals
- Attend a school or college with a below-average A Level or Higher point score and/or a low rate of progression into higher education
- Live in a neighbourhood with a low rate of progression into higher education and/or a high level of socio-economic deprivation
- Have excellent GCSEs or S4 qualifications:
  - England and Northern Ireland: Have achieved at least eight GCSEs at grade A or 7 or above, or near this level
  - Wales: Have achieved at least eight GCSEs at grade A or above, or near this level
  - Scotland: Have achieved at least six B passes at National 5 or above, or near this level

## WHEN IS THE DEADLINE FOR STUDENTS TO APPLY?

Students must submit their application by 20 January 2019. However, we strongly advise they get started earlier, as the application form requires some thinking!

## WHERE CAN I FIND OUT MORE AND APPLY?

There's lots more information on our website: <https://us.suttontrust.com> and the application form can also be found there.

For student videos about their US week last year:

<https://youtu.be/xfuhmulZBE>

<https://youtu.be/-0-cF4LXs> | Beyond the Sutton Trust US Programme, Fulbright offers advice and support for students, teachers and parents looking at US universities. Check out [our guide to US study](#) and also [USA College Day in September 2019](#).
