

# Careers Information 17<sup>th</sup> June

# JMU Student Shadowing Scheme

This is a unique opportunity to get first-hand experience of University life from our current Student Advocates.

The Student Shadowing scheme offers prospective students the chance to attend lectures, seminars and workshops and get an authentic taste of university study.

You can ask any questions you have about going into Higher Education and what it is like to live and study while at university, along with taking tours of the campus and accommodation.

Days begin between 8:30am and 12pm, and finish between 3pm and 5pm.

To help make your decision, find out more about our courses or contact the Outreach Team.

[contact us](#) to arrange a date.

# JMU Open Days

Friday 21<sup>st</sup> June 2019

Saturday 28<sup>th</sup> September 2019

Saturday 19<sup>th</sup> October 2019

Wednesday 6<sup>th</sup> November 2019

Not only will you get to experience the vibrant, exciting environment you'll be studying in, you'll also be able to chat to lecturers, go on a tour of Liverpool and get the inside scoop from some of our current students about what being a student here is really like.

- Attend your course subject talk and tour
- Go on a tour of your accommodation
- Get hold of some brilliant subject guides
- Explore our fantastic libraries
- Meet current students
- Get the financial advice you need at special talks from funding experts

It will include details of the new **BA Hons in Creative Technologies** and Performance which includes filmmaking and editing, script development, visual storytelling and using emerging technologies in performance.

There will also be details about **BA Hons in Sound Technology, Theatre and Performance Design** as well as **Theatre and Performance Technology**. More details about other courses can be found on line.

To find out more ring 0151 330 3000 or visit [www.lipa.ac.uk](http://www.lipa.ac.uk)

Booking necessary

# The Marginal Development Programme-for: Young people aged 8 - 25

The Marginal Leadership Programme is a 12-month mentoring initiative set up by **Comics Youth CIC** in conjunction with the Big Lottery Foundation, with the aim of providing underrepresented young people across the Liverpool City Region the opportunity to express themselves through the **medium of comics** and to hopefully open up a career pathway within the publishing industry.

Over the course of the year young people will be provided with 1-2-1 coaching, training, mentoring and guidance in illustration, character design, writing, business development and editorial management to run the first young person led publishing house of its kind in the UK entitled 'Marginal' from the Fourth Floor of 76-78 Lord Street. They will be given a budget of £5,000 to expand their narratives.

We are interested in **mentoring stories that reflect current and real youth issues in the UK**, and with increased cuts to arts funding it is vital that these voices are heard, and that all sectors of society are given the opportunity to tell their stories.

We are especially interested in **young people's voices that are underrepresented within comics and print media**, including LGBT communities, BAME young people, young people from working class backgrounds; young people experiencing mental ill-health or special needs, looked after young people and those who have experienced inequality.

Any student interested in applying please see Mr Bradfield-Smith for more information.

# Entry into Medicine

MedConnect Europe is an agency, which offers students the opportunity to actualise their dream to study medicine or dentistry.

There is a very high level of competition to study medicine and dentistry in the UK. Unfortunately many current applicants have not received interviews or offers to study their chosen course.

MedConnect Europe offers an alternative for these students. We provide students with the chance to study medicine or dentistry in Europe. Our universities offer GMC and GDC approved courses taught in English, with **lower tuition fees and lower grade requirements**.

We are also having an open day in UCL London on Saturday 17th August 2019. Please also find some video links attached to this email about some of our partner universities and our interview with Cambridge graduate, Dr. Ali Abdaal.

If you do have any questions or would like to schedule a visit to your school, please do not hesitate to let us know and we'll be more than happy to answer them or arrange the visit. The rest of our details are linked below.

# Vision Science Taster Day- University of Liverpool

Orthoptics at the University of Liverpool has an exciting opportunity for year 12 students from your schools and colleges that have shown an interest in Optometry, Orthoptics or Vision Science.

On 28<sup>th</sup> of June 2019, the University of Liverpool will be hosting two Vision Science Taster Days, there are two sessions each day. I have attached two flyers, if you would be willing to pass these on to the relevant teachers and students, I would greatly appreciate it.

They'll have the chance to gain **hands on experience**; learning techniques used by health specialists, experience a university style **taster lecture**, and learn how to **tailor their personal statement** for a their UCAS applications.

28<sup>th</sup> June 2019 – University of Liverpool, Thompson Yates Building,  
The Quadrangle, Brownlow Hill, L3 5RB

Visit the University website to book your place.

# Amey Opportunities

We currently have a number of Junior Data Analyst vacancies that we are recruiting for across both of my teams – Business MI and HR Systems & MI.

My teams are responsible for providing reporting across the whole of the Business utilising a Power BI solution.

We also support the business by providing ad-hoc analysis, mainly via Excel, and by building supporting solutions via PowerApps, Flow, VBA etc.

The role would suit somebody who has excelled in a technical qualification, such as IT or Computer Science, or used any level of programming language (such as SQL) with their education. We understand that students may not have

utilised the exact software, so training can be provided for the right candidate but we are looking for a self-starter with the desire to learn. The vacancies are permanent full time positions based in Speke, Liverpool. This is a really great opportunity for a technically minded person with room for growth, development and progression and would suit somebody looking for a starting point in a technical career.

I was hoping that you would be able to distribute my email to your students. I would really like to stress that this is a really great opportunity for somebody looking to get their foot in the door in a technical career and that the opportunities

that Amey provides are really exciting. I have attached a copy of the job description and the link to apply below.

<https://www.amey.co.uk/talent-link/external/job/174587>

# Newcastle University- Medicine

Newcastle University A Level entry requirements for Medicine 2020 - no science subjects required!

Newcastle University have updated their requirements and no longer specify A Level sciences as a requirement for entry to medicine: AAA at A level excluding General Studies, Use of Maths, World Development, Communication and Culture and Critical Thinking. No requirement for science subjects.

UCAT still required: <https://www.ncl.ac.uk/undergraduate/degrees/a100/#entryrequirements>

# University of Chester Open Days

12 and 26<sup>th</sup> October 2019

Booking necessary- follow the link
