### **Virtual talks & videos**

We still have a range of online HE preparation available that can complement in-school learning, including Student Finance, Applying through UCAS and many more. These can be delivered live or pre-recorded, and you can see our menu of activities for more details: <http://hud.ac/i0a>

You can also view our Applying to University Youtube playlist for some bite-sized introductions to useful topics: <http://hud.ac/hva>

### **New Academic School**

On 1 August 2021, the University will launch a new academic school called the **School of Arts and Humanities**. This will be the combination of the School of Art, Design and Architecture with the School of Music, Humanities and Media to become one of the largest of its kind in the UK. This is an exciting development for the University and is another step in our continuing commitment to offer our students a gold-rated teaching and learning experience.

In practical terms, this change will not affect your students' applications or the teaching on the course they have applied for or are planning to apply for. In fact, they may find that they have more opportunities to collaborate across a wider range of subject areas to broaden their understanding or experiences in complementary areas. If you have any further questions about this, please don't hesitate to get in touch.

Upcoming Events from our Careers Hub-

Thursday 20<sup>th</sup> May, Careers in Nursing

Thursday 17<sup>th</sup> June, Non-Medical NHS Careers

Thursday 15<sup>th</sup> July, Careers in Healthcare Science

Sign up details can be found [here](#).

**Springpod are finally launching their long awaited 'Virtual Degree Taster' Programmes**, that let students experience their university course of choice before they apply. These programmes offer an interactive insight into each given course's main content, as well as vital university lifestyle tips and employability advice.

As always, they are completely free, entirely remote and can be completed at times that suit your students (at their own pace). Once again, students will also receive a certificate upon completion which is perfect for CVs, personal statements and future interviews - this really helps them demonstrate initiative in spite of the limitations of the past year!

These taster programmes include course specific activities and reflection tasks as well as involving live webinars with notable academics and interactive quizzes in the future. Enrolment will begin on June 1st 2021.

Allied Health are running virtual work experience for those interested in any of the many careers available in Healthcare. The Work experience date is June 6th.

This programme is available to support all of your aspiring healthcare students as an alternative to in-person NHS work experience during the pandemic. Please inform your students who are interested in the NHS Allied Healthcare Professions.

During the work experience day, students will follow 2 patients from their initial presentation to recovery. Students will observe the healthcare professionals as they interact with the patients and also each other. Students will have an opportunity to ask questions and gain knowledge through teaching. This will help students to make an informed career decision as well as learn about how healthcare professionals work together as part of a multidisciplinary team. Each work experience day is completely different and students will be able to build on their knowledge of NHS careers as they see different patient cases and their healthcare professionals work in a variety of settings, such as hospital and community.

You can learn more and your students can register for the programme here: <https://alliedhealthmentor.org/nhs-healthcare-careers-virtual-work-experience/>

Students will receive certificates as evidence of having participated in the work experience programme. Students can register individually through the website link above. Places are just £10 a day to cover administrative costs and run the tech

Due to a specific funding received we, EDT (Engineering Development Trust), are in a fantastic position of being able to offer Year 11 / Year 12 students that attend your school a **fully funded bursary place** if they require financial support in paying for the [Insight into University](#) (previously known as Headstart & Inspire) course.

With the mix of hands-on practical STEM activities and projects set by **leading UK universities** and **global STEM companies** and live sessions, it offers pathway support to your students to see if university is right for them and open their eyes to a vast range of STEM courses. This is a **unique opportunity** for students interested in STEM to **access all this amazing content in one place**, then pick-and-choose subjects what interests them and do as many as they wish at their own pace over the summer. Here below are just a handful of examples of what the course has to offer. Are you a student who:

- Wonders if a future in Tech right for them? They can join an inspiring workshop developed by Tech Partnership degrees, involving Proctor & Gamble and Loughborough University.
- Is considering Chemistry at University? They will have access to live interactive chemistry taster days run by academics from University of Sheffield.
- Is not sure which branch of Engineering is right for them? Mechanical, Chemical, Civil, Electrical, Aerospace etc? Academics from a number of top UK universities will run live sessions to get an insight into what the different disciplines involve, and students will have an opportunity to ask all their questions.
- Is interested in HS2 and all the roles it could involve? They can work on a project developed by Balfour Beatty and speak to their engineers in live Q&A sessions.
- Likes Maths but does not know where it would take them? Academics at Lancaster University will run a selection of week-long group projects to give a taster of what it would be like to study maths at university.
- Has considered studying Materials Science at university? They will have a chance to find out more about this fascinating subject with lectures and activities from University of Cambridge.
