

Our Ref: 172/14

21st November 2014

Dear Parent/Carer,

Your son has been chosen as part of a 'Shoot into Sports Science' STEM project with the Royal Society and Liverpool John Moore's University to attend a number of workshops and a Keynote talk from a Senior Sports Scientist on Friday 28th November 2014. We will be leaving school by school coach and minibus at 8.40am and returning at approximately 1pm. We will be based in the Tom Reilly building for the morning.

The content of the morning will be as follows:

2x 45min Workshops on Match Analysis using PROZONE software

Giving our students the opportunity to experience the industry's leading analysis platforms, the workshops provide them with an insight into the workings of analysis in the professional game and support them in future units.

1x Keynote talk given by Professor Greg Whyte OBE (1 Hr)

This talk will involve Professor Whyte detailing the work he has done both Nationally and Internationally in the world of Sports Physiology. Greg is well-known for his involvement in Comic Relief. He has trained, motivated and successfully coached any celebrities to complete their Sports Relief challenges such as, David Walliams, John Bishop, James Cracknell, Cheryl Cole, Chris Moyles and Gary Barlow. To read more about him and his achievements please go to www.gregwhyte.com.

Please note students may want to meet at LJMU building and if doing so must be there by 8.50am in reception. The Director of Sixth Form, Mr Laird, has agreed that students may be dismissed from LJMU at 12.30pm dependent on behaviour, focus and involvement throughout the morning.

If you require any further information, please do not hesitate to contact me at school or on my email below.

Yours sincerely,

Mrs N. Dunne
Head of Physical Education
